

Ping-Pong Game

- You will need:
- Your dog
 - Lots of small pea-sized treats in a treat pouch or other easily accessible container
 - A clicker or a designated marker word like "yes"

1. Start by standing or sitting near your dog
2. Drop or lightly underhand toss a treat a few feet to your **left**
3. After they eat the treat, wait for them to orient back towards you. They don't need to make eye contact, just turn or look in your general direction.
4. When they do, say "yes" or click your clicker once and then lightly toss a treat a few feet to your **right**
5. Repeat, alternating the direction you toss your treats

 **Tip:** Add variety to this game indoors by practicing in different rooms and on different surfaces (carpet, a yoga mat, tile, etc.). When you start practicing outside, look for quieter low-distraction moments at first!
